## bespoke ceramics

### **stamp cost**

- ranges from \$50 – \$250 depending on size

### **silk-screen cost**

- cost to produce custom silk-screen with photographic images: \$250 (full-screen) or \$150 (half-screen). Note: cost could be higher if additional photo editing is needed.

### **examples of imagery:**

- building plans (blueprints)
- facades
- historical preservation
- construction
- infrastructure
- landscape
- business name/logo

### **the process:**

It's easy. Simply use this brochure to select your desired products and quantities. Then, send your inquiry to **ali@potteryali.com** and we'll discuss! As each piece is bespoke, please allow a minimum of 4-6 weeks (plus shipping if necessary) for your order. Following confirmation, and a pre-payment of 50%, send along all the necessary images. Potteryali will transform your designs into a stamp or silk-screen which will then be used to print onto the surface of the clay. Each piece will be formed by hand, slowly dried and fired in the kiln multiple times in order to construct the personalised pieces of artwork that will create conversations about your business.
